¹⁶ The interest rates are on BGN instruments. They are calculated by weighing with the corresponding amounts. Base interest rate, long-term interest rate for convergence assessment and SOFIBOR are calculated as average values.

¹⁷ Starting from 1 July 2017 the LEONIA Plus reference rate replaced the LEONIA reference rate as a basis for calculation of the Base Interest Rate (BIR). The BIR equals the simple average of the values of LEONIA Plus reference rate (LEv OverNight Interest Average Plus), a reference rate of the concluded overnight deposit transactions in Bulgarian levs on the interbank market, for the business days of the previous calendar month (base period) for which there are published values of the LEONIA Plus reference rate. Where this simple average amounts to a value less than zero, the BIR is set to a value equal to zero.

¹⁸ The average weighted effective yield to maturity on individual transactions achieved on the secondary market during the reporting period. The yield is calculated using the ISMA formula at ACT/365 day count convention. The securities are grouped by their original maturity.

¹⁹ The long-term interest rate for convergence assessment purposes is determined on the basis of the secondary market yield to maturity of a benchmark long-term bond issued by the Ministry of Finance (*Central government*) and denominated in the national currency. The ISMA formula at ACT/365 day count convention is used.

The data show the yield gained on the secondary market.

²⁰ Preliminary data for 2017. The interest rates are effective annual rates. They are average weighted with the volumes of new business throughout the reporting period or the outstanding amounts as of the end of the reporting period. Interest rates on new business and on outstanding amounts, applied by banks, on loans and deposits are vis-a-vis Non-financial corporations and *Households* and *Non-profit institutions serving households (NPISHs)* sectors.

²¹ Loans other than overdraft. Short-term loans include loans by original maturity up to and including 1 year and long-term loans - over 1 year.

²² The annual percentage rate of charge comprises all the interest payments on a loan, as well as all fees, commissions and other charges a client must pay in order to obtain the loan. It refers only to consumer loans and loans for house purchase to *Households*.

²³ Interest rates on new business and on outstanding amounts for overnight deposits and overdraft coincide.

According to Decision № 149/16.12.2004, amended with Decisions № 118/26.11.2015 and № 37/16.03.2017 of the Governing Council of the BNB, effective as of 1 July 2017 LEONIA is replaced by the LEONIA Plus reference rate for the business days of the preceding month (base period). Effective as of 1 July 2017 LEONIA is replaced by the LEONIA Plus reference rate as the basis for the calculation of the BIR.

² A reference rate of the concluded and effected BGN uninsured overnight deposit transactions in the interbank market in Bulgaria. Monthly values are calculated as the simple average of daily values.
