In BGN, total				44,545,670,000.00		

Note: The Lev equivalent of government securities is calculated based on the official exchange rate of the EUR to the Bulgarian lev and USD to the Bulgarian lev as of 31.12.2025.

SECONDARY MARKET OF GOVERNMENT SECURITIES

Volume and Structure of Frozen Government Securities

Note: The lev equivalent of government securities denominated in foreign currency is based on BNB exchange rates of foreign currencies against the Bulgarian lev quoted for the last business day of corresponding period.

Volume of Transactions in Tradable Government Securities
/fourth quarter/

Number of Transactions in Tradable Government Securities
/fourth quarter/

Notes:

1. The volume of transactions is at nominal value and includes transactions both with and without flow on cash settlement accounts in RINGS/TARGET, concluded in government securities issued under Ordinance No.5 of the MoF and BNB government securities.
2. Covers repo agreements (incl. reverse repo agreements) concluded throughout the period.
3. The lev equivalent of transactions in government securities denominated in foreign currency is recalculated using the BNB exchange rate of respective currencies on the day of conclusion of the transaction.

Note:

Covers repo agreements (incl. reverse repo agreements) concluded throughout the period.

Volume and Structure of Transactions in Tradable Government Securities by Maturity of Issues (Fourth Quarter)

Notes:

1. Covers repo agreements (incl. reverse repo agreements) concluded throughout the period.
2. The lev equivalent of transactions in government securities denominated in foreign currency is recalculated using the BNB exchange rate of respective currencies on the day of conclusion of the transaction.

Volume and Structure of Transactions in Tradable Government Securities by Currency of Issues (Fourth Quarter)

Note: The lev equivalent of government securities transactions denominated in foreign currency is based on BNB exchange rate of the respective currency on the day of transaction.

Holders of Government Securities

Notes: According to BNB and ESROT participants data. The lev equivalence of government securities issues denominated in foreign currency is calculated on the basis of the BNB exchange rate valid for the last business day of the relevant period.

Average Annual Yields of Repo Agreements in Government Securities

Government Securities in the Portfolio of Insurance Corporations and Pension Funds

Note: The lev equivalence of government securities issues denominated in foreign currency is calculated on the basis of the BNB exchange rate valid for the last business day of the relevant period.

Volume of concluded transactions with government securities on the secondary OTC market and MTF E-Bond Bulgaria, and transactions with securities on the Bulgarian Stock Exchange

Note:

1. The volume of government securities transactions includes purchases and sales, repo agreements (including reverse repo agreements) and transactions with and on behalf of clients.
2. Transactions in government securities denominated in foreign currency are recalculated using the BNB exchange rate of respective currencies on the day of conclusion of the transaction.
3. The volume of transactions, including government securities on the Bulgarian Stock Exchange, is at market value. (Source: Bulgarian Stock Exchange)
